Australia

Canned Deciduous Fruit

Annual

2005

Approved by:

Kathleen Wainio, Agricultural Counselor
U.S. Embassy

Prepared by:

Mike Darby, Agricultural Specialist

Report Highlights:

Australian production of canned peaches and canned pears are forecast to increase to 51,000 MT and 53,000 MT respectively in 2006, and exports are expected to increase in line with production. Improved climatic conditions and irrigation water supplies in the lead up to the 2006 season are responsible for the improved outlook. Official trade statistics show imports of canned fruit increased sharply in the first half of 2005.

Includes PSD Changes: Yes
Includes Trade Matrix: No
